

trüperTM

The exceptional, fast-producing, ready-for-duty scanner.

Trüper: Speeding To The Top of Its Class The low volume production scanner segment just got a little faster. Trüper's unique combination of image quality, duty cycle and speed make it an attractive option for service bureau overflow, busy office environments and businesses with exception document scanning needs. With flatbed plus rotary, or rotary-only models, Trüper can meet your diverse scanning needs.

Small Footprint, Easy to Use

With its small footprint and rotary style paper handling, Trüper 3600 fits in small spaces and delivers an easy to use front end to any scanning application.

Productive

Ultrasonic Multifeed Detection catches double-feeds automatically so rescanning is not needed
Lower total cost of scanning

Exceptional

Nearly double the duty cycle of other scanners in its class
10,000 scans per day

Fast-Producing

One of the highest scanning speeds in color, bitonal and grayscale
62 pages per minute

Handles Fragile and Odd Sized Documents

With the flatbed model, exception documents are no problem. Scan fragile records, bound documents and odd sized documents.

In addition to delivering the best of breed scanning technology and bundled feature sets – including VRS 4.1 Professional, Ultrasonic Multifeed Detection and Advanced Color Dropout – Trüper also delivers industry-leading value. Trüper increases scanning productivity and reduces the total cost of scanning, all at an affordable price. Whatever your scanning needs, Trüper helps you get it done faster and more efficiently. Trüper and Böwe Bell + Howell. Always adding value.

**VirtualReScan 4.1 Professional:
A Feature Bundle That
Saves You a Bundle**

With VRS 4.1 Professional, Trüper dramatically decreases document preparation time through its many efficiency enhancing features. Combining these features with high quality images and a high duty cycle makes Trüper an obvious choice for today's document management applications.

With Auto Color Detect, Blank Page Deletion and Auto Rotation included with VRS 4.1 Professional, you can reduce manual steps and operator intervention. These features produce measurable savings reducing the total cost of scanning.

**Auto Color Detect:
Mix Color and Bitonal**

With Auto Color Detect, Trüper automatically senses color and bitonal documents. Auto Color Detect allows you to eliminate sorting documents by color, saving you time and effort in document preparation.

**Auto Rotation:
Mix Landscape and Portrait**

Auto Rotation automatically adjusts the scanned documents, and displays them "right side up" as they are normally read. Auto Rotation reduces document preparation requirements, interruptions and operator intervention.

**Blank Page Deletion:
Save File Size and Money**

With Blank Page Deletion, Trüper automatically detects and deletes blank pages when scanning in duplex mode. Blank Page Deletion reduces both scanned file size and document preparation requirements.

High Quality Images

Trüper delivers great image quality for today's document management solutions. Whether you scan barcodes, forms, invoices or patient records, you can be assured that a Trüper scanner will accurately and efficiently capture your image.

Duty Cycle: Volume When You Need It

Trüper's daily duty cycle of 10,000 pages per day sets the standard for low volume production scanning. You can be assured that Trüper will handle your needs for both ad-hoc scanning as well as production scanning in peak times.

**Speed:
62 Pages Per Minute (PPM)**

In Color, Bitonal and Grayscale, Trüper provides accelerated throughput that ranks at the top of its production scanner class.

**Ultrasonic Multifeed Detection
With Multifeed Ignore:
Minimizes Rescans and Catches
Multifeeds**

Developed by Böwe Bell + Howell, Trüper uses Ultrasonic Multifeed Detection technology to catch unintentional multifeed documents. For documents where a multifeed is necessary, such as envelopes, or pages with photographs or sticky notes, Trüper can be set up to allow those documents through. The Multifeed Ignore feature reduces the need to separate documents, thereby reducing rescans and document preparation time.

**USB 2.0:
Drives Higher Speed Throughput**

Included with Trüper is USB 2.0, affording easy installation and accelerated document scanning throughput.

**Flatbed Plus Rotary and
Rotary-only Models**

Trüper now comes in two models to meet your scanning needs, a rotary only model, Trüper 3600 and a flatbed plus rotary model, Trüper 3200. For scanning applications that include exception documents, choose the Trüper 3200. For instances where no exception documents need scanning, choose the Trüper 3600.

**Advanced Color Dropout:
Optimized Forms Processing**

Users have the additional option of dropping out one or more color backgrounds simultaneously, on either side of a given document, while still capturing all color information in the foreground of the electronic image. Trüper's exceptional image quality provides improved OCR/ICR accuracy and barcode/patch code sensitivity, making it an excellent choice for healthcare, insurance, banking, law and government forms processing applications.

**User-Replaceable Parts:
Reduce Service Calls**

With easy to change and easy to clean parts, ongoing maintenance can be handled by Trüper users. This reduces the number of service calls required to maintain your scanner's health. Both models use the same consumable kits, quickly eliminating the need to stock multiple kits for multiple scanners.

**Wider Automatic Document Feeder:
Accepts Larger Documents**

Trüper's expanded document feeding capacity accommodates broader and over-sized "exception" documents cleanly and seamlessly. The expanded width also improves image crop and deskew in conjunction with the included VRS.

**Trüper 3200 Exception Scanning & High
Duty Cycle For Its Class: A Unique
Combination**

With the versatility to scan exception documents using its flatbed capability and the durability to deliver proven day-in, day-out duty cycles up to 10,000 documents – nearly double the industry average – Trüper 3200 truly offers the best of both worlds.

Birth Certificate
Protects fragile, old or
delicate forms

Bound Documents

Creates images from bound documents, such as the atlas pictured below
