Optimized for small business

Epson's CaptureOne Single-Feed scanner is designed expressly for small business customers who process up to 30 checks a day. Built with the same proven reliability and innovative features as Epson's original CaptureOne desktop check scanner, the CaptureOne Single-Feed model features the highest MICR read rate in its class, a high-quality image scanner to ensure crisp, clear check images, electronic endorsement feature, built-in franker and more.

Cost-effective and reliable

Epson's CaptureOne Single-Feed 30 DPM scanner offers fool-proof remote deposit capture for small business customers with the ultimate in quality and reliability at an affordable price. Put this together with all its advanced features, and Epson's CaptureOne Single Feed scanner is the ideal option for banks and ISOs looking to implement trouble-free RDC in a large number of small businesses in geographically dispersed locations.

Easy to use. Easy to maintain.

The CaptureOne Single-Feed scanner for small businesses was designed to be easy to use and maintain. The check scanning process is simple and tasks like undoing a jam or replacing the franker unit are quick and easy with no special training required. It also features advanced self-diagnostics which keep the operator informed of the scanner status and when it is time for maintenance.

Epson quality and reliability

With a MCBF of 2.47 million documents, CaptureOne Single-Feed has the reliability you need. And best of all, the CaptureOne Single-Feed check scanner is backed by Epson's industry-leading service and support programs.

Industry-leading warranty

Unlike other check scanners, CaptureOne Single-Feed is the only check scanner available that comes with a standard two-year warranty.
