Simple solutions for document management

Simple Solutions for Document Management

How many clicks *does* it take to scan your documents? Many small business scanning applications lack time-saving automation features like OCR and barcode recognition found in enterprise software. **SimpleIndex** is the most affordable fully-featured document capture solution available.

SimpleIndex provides easy 1-click scanning, unattended processing and even supports MS Office, PDF, audio and video files. It is the fastest, most affordable way to organize all of your digital files or index them for your document management system.

The **Simple** Software Document Management Suite

SimpleIndex - automates document scanning and indexing.

SimpleCoversheet - print barcode cover pages to automate indexing from MFP's.

SimpleQC - view thumbnails, rotate, clean-up and rescan images.

SimpleSend - distribute documents via secure FTP or e-mail.

SimpleSearch - search and view your documents from any database.

SimpleQB - attach files and post captured data to your QuickBooks database.

- TWAIN & ISIS scanning
- Barcode recognition
- Zone & full-page OCR
- Locate moving OCR zones with pattern matching
- Pattern matching works on MS Office & PDF files too!
- Preview audio, video & OLE-enabled documents
- Index any file on your computer
- Command-line interface for easy application integration
- Export to any ODBC or OLE database
- Auto-populate index field data from your database
- Audit batches for required documents
- Electronic imprinting & bates stamping
- No monthly page count limits or click charges
